## **BT&H SECRETARY CONTRERAS-SWEET ANNOUNCES \$150 MILLION FOR AFFORDABLE HOUSING AND ECONOMIC DEVELOPMENT ACROSS THE STATE**

Today California's Secretary of Business, Transportation and Housing Maria Contreras-Sweet announced the award of over \$150 million in grant and loan funds to build affordable housing and spur economic development throughout the state. The State housing funds announced today will produce over 5,500 permanent affordable housing units and homeless shelter beds in communities across the state. The funds will go to provide permanent financing for the development of new affordable rental housing, homeless shelters and other community improvement projects in more than 100 local communities across the state.

"Today we are taking a giant step forward to meet California's affordable housing needs" said Secretary Contreras-Sweet. "We are investing in new housing developments across the state – creating jobs and spurring the local economy."

Contreras-Sweet also said the state funds announced today are part of Governor Davis's commitment to Build California – a special statewide initiative to speed the delivery of state construction funds and spur the statewide economy announced by the Governor during his Second Inaugural Address in January, 2003.

“With today’s announcement Governor Davis is affirming that the State of California is back in the affordable housing development business,” said Matthew Franklin, California’s Director of Housing and Community Development. “In his first term Governor Davis appropriated more money to affordable housing than any prior Governor. And now he is speeding the investment of Proposition 46 funds to build even more housing and create much needed jobs.”

Projects funded in today’s announcement include over \$100 million to produce 2,100 affordable rental housing units for lower income workers and their families, the disabled and elderly; as well as \$25 million for new or expanded shelters for the homeless, and housing for those transitioning out of homelessness. This will produce or preserve 3,560 shelter spaces for the homeless.

Another \$25 million rewards local governments that have planned appropriately to balance their housing needs with job growth and followed through on those plans by significantly increasing permit approvals. Jurisdictions receiving awards increased permit approvals by over 24,000 housing units compared to the previous three year averages. An additional \$28 million is anticipated to be awarded next week for farmworker housing and local code enforcement programs.

“The award of State housing funds today will provide an immediate boost to local economies across the state,” said Matthew Franklin, California’s Director of Housing and Community Development. “These funds will empower our local partners – nonprofit and for profit developers, cities and counties – to hire or retain construction workers, architects, engineers, building materials suppliers and others, creating a ripple effect throughout the state economy.”

Today’s awards were made through three different HCD programs:

Created by the Davis Administration, the successful *Multifamily Housing Program (MHP)* provides funding for affordable rental housing for the working families, the elderly and disabled and other special needs populations. Eligible costs include developing the housing units; and space for child care, after school care, and social services facilities linked to the assisted housing units. Applicants are local public entities, for-profit and nonprofit corporations, limited housing cooperatives, Indian reservations and rancherias, and limited partnerships.

The innovative *Jobs/Housing Balance Program (JHB)* is the first of its kind in the country to reward communities who plan for housing to meet the needs of their workforce and deliver on those plans by allowing needed development to occur where it is most needed. Awards can be used for capital projects or purchases benefiting the community; such as neighborhood park facilities, bike paths, community centers, and equipment purchases. The purpose of the grants is to provide financial incentives to cities and counties that increase their issuance of residential building permits.

*Emergency Housing and Assistance Program (EHAP-CD)* funds are available to urban and non-urban counties to create emergency shelters and transitional housing with supportive services for homeless individuals and families. Local government agencies and non-profit corporations that shelter the homeless on an emergency or transitional basis, and provide support services are eligible applicants.

### **San Francisco/Bay Area**

The San Francisco/Bay Area was awarded \$55.2 million in housing bond funds. HCD's Multifamily Housing Program will award \$44.9 million to 11 different Bay Area cities; more than \$7.1 million will be awarded by HCD's Emergency Housing and Assistance Program; and, \$3.3 million of HCD's Jobs/Housing Balance Program will be provided to San Francisco Bay Area cities and counties that meet the criterion. (Editor: Please see attachment listing of cities receiving funding in the San Francisco/Bay Area).

### **Los Angeles Region**

In total, the Los Angeles region was awarded \$54.3 million in housing bond funds. HCD's MHP will award \$33.6 million to 12 different cities in the Los Angeles region; more than \$10 million will be awarded to the Los Angeles region by EHAP-CD; and, more than \$10.7 million through JHB. (Editor: Please see attachment listing of cities receiving funding in the Los Angeles region).

### **San Diego County**

The San Diego Region was awarded \$17.7 million in housing bond funds. HCD's Multifamily Housing Program will award \$12.9 million to San Diego County; the JHB will award \$2.5 million to the cities and counties in San Diego County; and, more than \$2.3 million will be awarded by HCD's Emergency Housing Assistance Program for capital development CD. (Editor: Please see attachment listing of cities receiving funding in the San Diego County).

### **Greater Sacramento/Stockton Area**

In total, the Greater Sacramento/Stockton Area was awarded \$13 million in housing bond funds. HCD's Multifamily Housing Program awards total \$4 million; the Jobs Housing Balance Incentive Grant Program will provide \$6.1 million; and, more than \$2.9 million will be awarded by the Emergency Shelter Grant program for Capital Development. (Editor: Please see attachment listing of cities receiving funding in the Greater Sacramento/Stockton Area).

### **Central Valley Region**

The Central Valley was awarded \$4.8 million in housing bond funds. More than \$2.5 million will be awarded through the EHAP-CD; and, \$2.3 million through the JHB. (Editor: Please see attachment listing of cities receiving funding in the Central Valley).

### **Governor Davis' Commitment to More Jobs Now and to Build Affordable Housing**

Since taking office in 1999, Governor Gray Davis has provided more funding for affordable housing than any Governor in California history. He approved \$500 million in State funding for housing seniors, the disabled, farm workers, first-time homebuyers, and the homeless. In addition, Governor Davis was a strong proponent of Proposition 46, the \$2.1 billion housing bond that will supply more than 130,000 total housing units and create an estimated 276,000 jobs over the life of the bond.

The California Department of Housing and Community Development is the State's lead housing Department and provides leadership, policies and programs to preserve and expand safe and affordable housing opportunities and promote strong communities for all Californians. The Department also supports increasing the supply of housing, especially affordable housing and works to improve the State's housing conditions and the health and safety of its residents. The Department and the California Housing Finance Agency are part of the State of California Business, Transportation and Housing Agency.
